# MEDEXPERT

Once upon a time, our doctors made house calls. They took whatever time was necessary to explain our condition, discuss the treatment plan, and answer our questions.

Today, these conversations are compressed into a few minutes. And given the staggering amount of medical information that doctors must process, physicians simply don't have the time to stay current or to communicate completely.

This is known as the **medical information gap**. Fortunately, *there is a way to bridge the gap*.

## It's Called MedExpert

MedExpert is a phone-based healthcare service that provides the medical information you need to make the right treatment and prescription decisions.

MedExpert uses its unique computer technology to examine all current medical research in real time. In the hands of on-staff physicians, this technology creates a "medical expert" who grasps *all* medical conditions and *all* treatment options.

# EXPECT MORE

When you call MedExpert, you are getting current, accurate, and unbiased information—carefully explained to you in regular language. Who would want to base their family's medical decisions on anything less?

### Top 5 Reasons to Call MedExpert

1. Find the right solution to treat a problem
2. Discover all treatment options
3. Learn the success rate of surgery
4. Save money on prescriptions
5. Make a medical appointment

You can rest assured that MedExpert takes privacy seriously. No health information is reported to your employer, your health insurer—or anyone else.
